

# ORDERING YOUR FENCE

## BEFORE YOU ORDER

---

1. Make sure you have consent from your neighbour
2. Make sure you have selected the right fence height and configuration for your wind zone region and as per the requirements of your local council.
3. Make sure you have the correct colour ordered and correct rail and post lengths for your ground type.
4. Make sure you have read this document fully and its understood, if in doubt seek expert advice or contact your nearest Metalcraft Fencing manufacturing branch.

## WHEN ORDERING

---

Determine the perimeter of your fence line accurately, this is important (a surveyor may be required in some cases).

Fill in the fence quote request form and email:  
[sales@metalcraftfencing.co.nz](mailto:sales@metalcraftfencing.co.nz)

Please note It may be necessary to use a part panel to make up a fence run.

All posts are to be embedded into a concrete footing, please refer to the Design Guide and installation Guide.
